Fairlight The Legend

BY BO JANGEBORG

Fairlight I (The Light Revealed) made software history when it was first launched, and it has never been seriously challenged in the stakes for 'best 3D arcade adventure'.

Fairlight: The Legend, brings both Fairlight I and its sequel, Trail of Darkness together in one package for the price of just one game. Trail of Darkness starts exactly where Fairlight I leaves off, just outside the castle of Avars, and finds our hero off in search of the lost Book of Light and the Lord of Darkness. Really 2 games in one, Trail of Darkness is more like parts 2 and 3 of a **Fairlight Trilogy** — it features around 128K of game code!

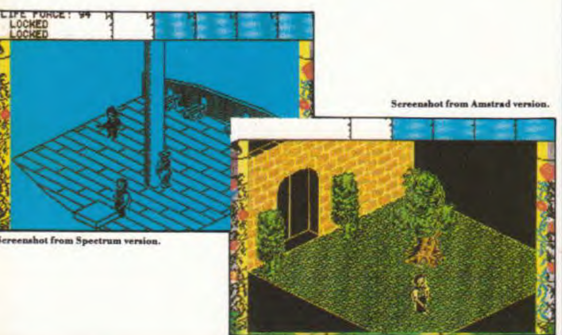

What the press say about Fairlight:

"Words fail to describe its excellence ..." *AMTIX*

"I've never seen a game that looks as good as this ..." *CRASH*

"An excellent game ... enthralling atmosphere and absorbing play." *ZZAP!64*

"... one of the most sophisticated games we've ever seen ..." *Your Sinclair*
